

Uninsured loss recoveries

At Sedgwick, we recognise that recoveries are central to our clients' operational health and cashflow. Our motivated team of legal specialists works alongside our claims and adjusting colleagues to provide a quick, simple and effective ULR service.

Clients reap the benefits of our team's strong and established track record. Our lawyers have acted on some of the UK's largest-value and highest-profile property claims in recent years, and we have a wealth of experience in a variety of claims models, including full outsource and captive arrangements. Sedgwick's legal services team specialises in a range of areas, from modest damage and debt claims to significant UK and international losses.

The Sedgwick difference

	<p>Our bespoke case management system Darwin ensures recoveries are identified at the first notice of loss (FNOL) — securing evidence from the outset.</p>		<p>Our free screening report service offers initial recovery advice based on key documents and evidence. We also advise on further investigations and next steps to progress recovery.</p>
	<p>Automated notifications from our claims and adjusting teams allow real-time access to evidence and circumstances and eliminate double keying.</p>		<p>Risk and reward funding models — including damages-based agreements and conditional fee agreements (no win, no fee) — align our commercial interests with our clients' and allow claims to be pursued at little or no cost.</p>
	<p>Our small claims team (losses under £10,000) is process-driven to maximise recoveries.</p>		<p>We deliver training and case support — in your office, our office or online.</p>
	<p>Our partner-led service is provided by litigators experienced within the property and casualty market in the UK and beyond.</p>		<p>Clients can access our mock trials, webinars, workshops, alerts, data analytics and surgeries.</p>
	<p>Clients receive access to viaOne, Sedgwick's self-service management information portal.</p>		<p>Sedgwick can handle international claims, thanks to our presence in almost 100 jurisdictions.</p>
	<p>We provide bespoke management information reports, including trend analysis and pipeline reports to assist with forecasting.</p>		<p>Our legal services are integrated with our claims, adjusting, surveying and forensic accounting solutions.</p>
