Mark has worked as an adjuster for 30 years and has worked on a substantial number of complex technology and cyber claims. He was appointed as global technology specialist practice group leader on joining Sedgwick in 2016

He has been involved in a number of industry award wins including:

- Insurance Post Fraud Awards 2018
- UK Customer Service Excellence Awards Fight Against Fraud Award 2019
- British Claims Awards Major Loss Award 2019
- British Insurance Awards Major Loss Award 2019
- Insurance Post Fraud Awards 2019

### Significant losses

- Turkey earthquake – £100m+
- University research department – £80m – fire
- National communications outage – £70m – earthquake damage
- Non-UK national mobile network outage – £31m – defective core software
- National telecoms supplier – £30m – cyber attack

### Thought leadership

Mark is an accomplished speaker and regularly leads seminars, webinars, training sessions. He also presents at conferences including Sedgwick's fringe session at this year's BIBA conference: *5G networks and their increased exposure to cyber-attacks*

He is no stranger to the trade's press, having provided commentary for numerous articles including but not limited to the following examples:

- Blog: [Data-wiping malware: a direct threat to operations](#)
- Blog: [Claim farming for damages in light of data protection laws](#)
- The Journal: [5G Risks](#)
- Insurance Post: [Are insurers and insureds ready for 5G?](#)
