Paul has more than 15 years' experience handling property insurance claims.

He advises UK general insurers and London market syndicates across domestic, commercial and corporate risks.

He is regularly instructed on losses relating to plant and machinery, environmental damage and landslip claims, particularly on high value risks with large uninsured losses. He has also pursued major plant and goods losses in Europe and Australasia.

Paul regularly provides training to clients and brokers on claims best practice.

Significant losses

- Instructed to advise on product liability and recovery following major recall, with claims exposure in excess of £20m
- Led on a COVID-19 business interruption claims outsource arrangement for two major clients, arising out of an SME gym/leisure book and a hospitality book, respectively
- Developed a new product focusing on recovery claims arising out of historic sexual abuse claims, working alongside casualty colleagues
- Advised insurers on coverage and reinstatement following £1m+ property collapse above a trainline.
- Pursued a £6m recovery claim following escape of water at a major London hotel
- Managed various £1m+ class actions arising out of the Worksop 2019 floods, the Skewen mine collapse and the Exeter bomb damage in 2021
- Represented various claimants following the Newcastle 2012 floods, with total claims in excess of £20m
